With the Nelson SR150 Big Gun, you get effective, efficient coverage from close in at the nozzle all the way to far away at the end of the water stream.

The Rain Kannon self-contained irrigation system, irrigates an acre with 1" of water in 3 hours @ 70 psi. The mobile trailer permits easy mobility to move the unit to the area that needs irrigating, as well as to store overnight to protect against vandalism.

The Rain Kannon is the irrigation solution for athletic fields, cemeteries, schools, parks, military bases, farms, dust control, cities and towns worldwide! The Rain Kannon will solve all of your irrigation problems!
